Disopyramide, antiarrhythmic effect, 4: 271
Disseminated cryptococcosis after transurethral resection of the prostate, 4: 296
Drugs, non steroidal anti-inflammatory, and blood pressure, 5: 478
Duodenal ulceration, ranitidine versus cimetidine in the treatment of, 5: 547

Echocardiography, two-dimensional, false positive diagnosis of vegetations on a myxomatous mitral valve using, 5: 540
Endocrine neoplasia Type 1, multiple, and posterior pituitary tumour, 2: 179
Endoscopic injection sclerotherapy of oesophageal varices, 2: 131
Enterocolitis, gold induced, 6: 617

Fascioliasis after eating wild watercress, 5: 525
Focal seizures and systemic metabolic disorders, 6: 620

Gastric cancer, early, clinical and endoscopic study, 3: 284
Gastric secretion of 6-keto prostaglandin F1 and cigarette smoking, 2: 206
Gastric transection, partial, for morbid obesity, meal stimulated gastrin and pancreatic polypeptide levels before and after, 1: 27
Gastrointestinal peptides, current concepts, 6: 642
Gastrointestinal tract lymphoma, primary, 2: 135
Gastro-oesophageal reflux, management of, 1: 90
Gold induced enterocolitis, 6: 617

Haematuria associated with ureaplasma infection in sickle-cell trait, 4: 293

Haemochromatosis and congestive cardiomyopathy—rapid progression possibly accelerated by excessive ingestion of ascorbic acid, 2: 187
Haemophilus influenzae meningitis in adults, 2: 182
Haemoptysis due to unsuspected foreign body penetration of the oesophagus, 5: 533
Heart and acromegaly, 6: 603
Heart failure, chronic, prazosin and captopril in, 5: 483
Heparin-induced skin necrosis, 3: 288
Hepatitis, acute sporadic non-A non-B, in an urban community in New Zealand, 3: 268
Hepatitis B infection in the aetiology of chronic hepatitis, 1: 19
Hepatitis infection in an institution for the mentally retarded, 1: 30
Hepatotoxicity and neurotoxicity following sulphasalazine administration, 1: 76
HLA linkage in familial Paget's disease, 5: 498
Hyperaldosteronism in pregnancy, 5: 537
Hyperkalemia in a diabetic due to renal tubular unresponsiveness to aldosterone, 1: 63
Hypertension, renovascular, percutaneous angioplasty in the management of, 2: 189
Hypertension, single dose administration of propranolol in, 5: 473
Hypoglycaemia, tumour-induced, benign pleural mesothelioma with, 1: 70

Immunological types of lymphoproliferative disorders in a cohort—a 4 year study, 4: 258
Inflammatory bowel disease in Auckland, NZ, 2: 125
Intestine, chronic radiation injury, 3: 272
Investigational services within general medical units, 2: 169
Ipratropium bromide, use in patients with severe airways obstruction, 1: 38
Ischaemic heart disease in New Zealand Maori and non-Maori, 4: 267

Labetalol, anti-hypertensive action, 5: 467
Leptospirosis, renal lesions, 4: 276
Leukaemia, acute myeloid, in children, 2: 143
Leukaemia, acute non-lymphocytic, immunotherapy maintenance in, 6: 583
Leukaemia, adult acute, retrospective analysis of 158 cases, 3: 238
Leukaemic meningitis, exclusion by quantitation of T and B lymphocytes in CSF, 3: 286
Liver disease, the role of liver biopsy in determining the aetiology of; alcohol unrelated hepato-biliary disorders in the alcoholic, 1: 34
Lymphoma, primary gastrointestinal tract, 2: 135
Lymphomatoid granulomatosis, 6: 624

Melanoma, malignant, phase II study of cyclophosphamide, vincristine and DTIC in the treatment of, 4: 263
Mebhydrolin induced agranulocytosis, 2: 173
Meningitis, haemophilus influenzae, 2: 182
Meningococcal disease and C8 deficiency, 6: 638
Menstrual cycle and nutrient intake, 2: 211
Mental institution, hepatitis infection in, 1: 30
Mesothelioma, benign pleural, with tumour-induced hypoglycaemia, 1: 70
Methyl salicylate, topical bioavailability, 3: 303
Multiple sclerosis, 4: 302
Myelofibrosis associated with periostitis, 2: 177
Myocardial infarction, accuracy of hospital diagnosis, 1: 14
Myocardial infarction, acute, beta-adrenoreceptor blockade after, 2: 119
Myocardial infarction and infarct size, serum myoglobin, creatine kinase and creatine kinase-MB as mutually supportive indices of, 2: 160
Myocardial infarction, recognition and management of denial in patients after, 6: 607
Myocardial infarction, subendocardial, 2: 166
Myocardial infarction, transmural anterior, left ventricular response to exercise after, 5: 489
Myocardial infarction, trials of treatment with beta blocker drugs following, 1: 3
Myocardium infarcting? 6: 581

Necrosis, skin, and leucocytoclastic vasculitis following subcutaneous heparin calcium, 3: 288
Nephritis, mesangial IgA, suppressor cell function in, 2: 208
Neurotoxicity and hepatotoxicity following sulphasalazine administration, 1: 76
Nitroglycerine, intravenous, in refractory unstable angina pectoris, 6: 598
Nutrient intake and the menstrual cycle, 2: 211

Obesity and the sleep apnoea syndrome, 6: 656
Obesity, morbid, meal stimulated gastrin and pancreatic polypeptide levels before and after partial gastric transection, 1: 27
Oesophageal varices, simple endoscopic injection sclerotherapy, 2: 131
Optic atrophy, familial, with diabetes mellitus, 1: 48
Osteodystrophy in patients with chronic renal failure, 3: 250
Osteolysis in progressive systemic sclerosis, 6: 627
Ovarian cancer, advanced, 3: 245
Oxprenolol: metabolic effects, 6: 612

Paget's disease, familial, and HLA, 5: 498
Pancreatitis, panniculitis and methandienone, 3: 302
Parkinson's disease, management, 2: 195
Periostitis, myelofibrosis associated with, 2: 177
Phenylbutazone, sialadenitis and systemic reaction associated with, 3: 261
Phenytoin, effect of food on the absorption of, 3: 258
Pituitary tumour, posterior, and multiple endocrine neoplasia Type 1, 2: 179
Pituitary tumours, evaluation of dynamic pituitary function tests in patients, 4: 231
Plasmapheresis in the treatment of chronic relapsing polyneuropathy, 1: 81
Pleural mesothelioma, benign, with tumour-induced hypoglycaemia, 1: 70
Pleural mesothelioma, malignant, in Western Australia, conventional treatment and its effect on survival of, 3: 229
Pneumocephalus after thoracotomy, 1: 67
Pneumococcal sepsis in a neonate, 2: 185
Pneumonia, antibiotic treatment, 1: 85
Polyneuropathy, chronic relapsing, specificity of plasmapheresis in the treatment of, 1: 81
Prazosin and captopril in chronic heart failure, 5: 483
Pregnancy, primary hyperaldosteronism in, 5: 537
Propranolol, single dose administration in hypertension, 5: 473
Prostate, disseminated cryptococcosis after transurethral resection of, 4: 296
Pseudoaneurysm of the left ventricle diagnosed by two dimensional echocardiography, 1: 56
Pulmonary cryptococcosis, 5: 527

Pulmonary emboli, right atrial thrombus simulating myxoma on M-mode echocardiography in a patient with, 5: 543

Radionuclide scanning for the rapid diagnosis of acute cholecystitis, 3: 265
Reiter's syndrome associated with salmonella muenchen infection, 3: 290
Reiter's syndrome following antibiotic-associated colitis, 3: 292
Renal cholesterol embolism, 5: 531
Renal failure, acute, due to interstitial nephritis resulting from radio-contrast agents, 6: 630
Renal failure, chronic, assessment of osteodystrophy in patients, 3: 250
Renal failure, oliguric acute, toxic-shock syndrome in a male complicated by, 1: 60
Renal lesions in leptospirosis, 4: 276
Renal tubular unresponsiveness to aldosterone, hyperkalemia in a diabetic due to, 1: 63
Renovascular hypertension, percutaneous angioplasty in the management of, 2: 189
Rheumatic disease, antimalarials, 6: 645
Rotor's syndrome, urinary coproporphyrin excretion in, 6: 594

Secretory immune system in man, 4: 255
Sepsis, neonatal pneumococcal, 2: 185
Shoshin beriberi, 1: 98
Sialadenitis and systemic reaction associated with phenylbutazone, 3: 261
Sickle-cell trait, haematuria associated with ureaplasma infection, 4: 293
Sleep apnoea syndrome and obesity, 6: 656
Smoking, effect on gastric secretion of 6-keto prostaglandin F1, 2: 206
Statistical significance, the other side of; a review of Type II errors in the Australian medical literature, 1: 7; 5: 550
Still's disease, adult onset, 5: 522
Sulphasalazine administration, combined hepatotoxicity and neurotoxicity following, 1: 76
Syringe seals, Terumo, chemical leaching from, 3: 305
Systemic lupus erythematosus, hydrallazine-induced, cardiac tamponade in, 5: 546

Tachycardia, incessant supraventricular, surgical division of right and left free wall accessory atrioventricular electrical connections in a child, 1: 52
Tangier disease with normal serum cholesterol, 5: 515
Temporal arteritis, fatal neurological complications, 4: 299
Tetanus toxoid, use for testing cell-mediated immunity, 5: 511
Thallium-201 myocardial perfusion scanning, clinical indications, 3: 294
Thoracotomy, elective, spontaneous pneumocephalus following, 1: 67
Thrombosis, post-splenectomy, in HbH disease, 6: 635
Thyroid cancer and thyrotoxicosis, 6: 589
Thyroid carcinoma, serum thyroglobulin in, 4: 248
Thyroid function, alterations, after cholecystographic contrast agents, 2: 192
Thyrotoxicosis and thyroid cancer, 6: 589
Toxic-shock syndrome in a male complicated by oliguric acute renal failure, 1: 60
Type II errors in the Australian medical literature; the other side of statistical significance, 1: 7; 5: 550

Ulcer, duodenal, ranitidine versus cimetidine in the treatment of, 5: 547

Vegetations of a myxomatous mitral valve, using two-dimensional echocardiography, false positive diagnosis of 5: 540
Venous thromboembolism, comparison of sodium and calcium heparin in prevention of, 5: 501
Venous thrombosis in haemoglobin H disease after splenectomy, 6: 635
Ventilatory control in patients with chronic airflow obstruction, 5: 504
Verapamil and beta-adrenergic blocking drugs, adverse interaction, 4: 285

Whipple's disease, absence of PAS-positive macrophages in hepatic and lymph node granulomata in, 1: 73
